Pre-Summit

Location

Wed., 02.03.16	17.00 – 19.00	RENEWING THE CULTURE OF PROFESSIONAL COOPERATION IN SCHOOLS	ProjektZentrum Berlin der Stiftung Mercator Neue Promenade 6, 10178 Berlin
-------------------	------------------	--	---

A current representative study of secondary school teachers in Germany provides new insights on teachers' views of and expectations from professional cooperation in schools. In parts of the questionnaire, the study is aligned to the OECD's Teaching and Learning International Survey (TALIS), which allows for some interesting international comparisons. Professors Hans Anand Pant (Humboldt-Universität Berlin) and Dirk Richter (Bergische Universität Wuppertal), the study authors, will kick off the session by presenting and highlighting key findings. A subsequent panel discussion with international and German teaching professionals will then focus on current trends in professional cooperation in schools and tackle potential for further development.

The study of German teachers was commissioned by a consortium of four German foundations focusing on education, including Bertelsmann Stiftung, Robert Bosch Stiftung, Stiftung Mercator and Deutsche Telekom Stiftung.

Open to teaching professionals and ISTP participants / Organised by Stiftung Mercator, Bertelsmann Stiftung, Robert Bosch Stiftung and Deutsche Telekom Stiftung
